Cholera Cumulative Mortality Cases since November 2010 (Published on 16 June 2011)

OCHA

Following the torrential rains that hit Haiti on the evening of 6 to 7 June, PAHO set up a surveillance system in camps in cooperation with the Camp Coordination/Management Cluster (CCCM). Additional medical supplies (catheters, doxicicline, érythromycine and sirop) have been made available in hard hit areas where poor sanitation and hygiene conditions are predicted to trigger additional cholera outbreak.
